

Application for AACCE International
Competitive Scholarships at the
Undergraduate and Graduate Levels
In U.S. and Canadian Schools

Applications Submittal Deadline - March 31, 2010
AACCE International Montreal Section

INTRODUCTION

AACCE International is dedicated to promoting the planning and management of cost and schedules. To promote this objective, AACCE International awards academic scholarships to full-time students pursuing a related degree in **engineering, construction management, building construction, computer sciences, business, quantity surveying, information technology**, etc. The cost engineering profession uses the process of cost management to identify and define those areas of business in which the discipline of cost engineering and cost management principles may be applied to plan and control resources, assets, costs, profitability, and risk. The major elements of the cost engineering discipline include estimating, project/product controls, planning and scheduling, business sciences, and project/product management

ELIGIBILITY

Applicants for AACCE scholarships must be currently enrolled full-time students who are enrolled in a program related to cost engineering / cost management. Applicants in their final undergraduate year must have been accepted to attend a full-time graduate program in the next academic year to qualify for a scholarship. AACCE scholarships are awarded for use in the fall term of the next academic year.

EVALUATION CRITERIA

Scholarship recipients are selected on the basis of academic performance (35%), extracurricular activities (35%), and an essay (30%) on the value of study in cost engineering or total cost management, and explain why it is important to your academic objectives and career goals.

Students may submit scholarship applications by March 31, 2010.

All applications should be returned to:
